

Lowell Announces Completion of One Million Hours of Accident Free Work at the Warintza Project

April 12, 2022 – Quito, Ecuador – Lowell Mineral Exploration Ecuador S.A. (“Lowell” or the “Company”), a subsidiary of Solaris Resources Inc. (“Solaris”), is pleased to report that the Company has completed one million hours of work without accidents in the initial exploration phase of operations at the Warintza Project (“Warintza” or the “Project”) located in southeastern Ecuador. This milestone is a reflection of a solid corporate safety culture and responsible compliance with the standards and guidelines applied by Lowell in all areas of operation.

Jorge Fierro, Vice President of Exploration for Solaris commented, “We celebrated one million hours of accident free work and this has been a great milestone achieved for the Company. Our corporate model is to promote safe work for all members of our workforce and guarantee sustainable operations. This milestone is the result of the commitment of each employee and contractor in the field who works for the Project. Our management goal is that each one of the more than 500 workers can fully enjoy a safe work environment and return home to their families in good health.”

This collective achievement of Lowell is part of Lowell's Occupational Health and Safety Policy based on the prevention of occupational risks to avoid work accidents and occupational illness in the workplace and is calculated based on man-hours worked on the Project.

Oscar Kukush, Occupational Health and Safety Assistant at Warintza, originally from Warints community, commented: “I’ve learned a lot while working at the Warintza Project – we return home just as we left for work. The Company takes care of its workers with constant orientations and training and they give us appropriate personal protection equipment. I am proud to work for and represent Lowell. This is an opportunity for Ecuador because we learn something new every day and we carry this work ethic home to our families and communities.”

Solaris continues to promote full, productive and safe employment in all its operations, in line with the United Nations’ Sustainable Development Goal #8: Decent Work and Economic Growth, promoting sustained and inclusive economic growth, driving progress, creation of jobs and improving living standards.
